ITALY VIRTUALLY ENTERS CONFLICT

Senate by a Vote of 262 to 2 Has Passed Bill Vesting Plenary Powers in the Government

DEMONSTRATION IN FAVOR OF WAR INCREASING

Austrians Consider That a State of War Already Exists—Have Withdrawn Their Troops and Custom Guards from the Frontier at Ponte Caffaro and Ladrona, After Destroying Bridges and Telegraph and Telephone Lines—Other Bridges on the Frontier Have Been Mined—Austrian and German Forces are Concentrating on the Frontier

Serbian Detachments Have Been Thrown Back—Nothing of Note Has Transpired in Belgium or France.

The Italian senate by a vote of 262 to 2 has passed Premier Salandra's bill conferring plenary powers on the government in case of war with Austria. This measure had previously passed the chamber of deputies and the senate vote virtually assured Italy's entry into the conflict. The popular demonstrations in favor of war are growing more numerous in Italy and from all parts of the kingdom scenes of great enthusiasm are reported. Switzerland has agreed to represent Italian interests in Germany in event of war.

It appears the Austrians consider that a state of war already exists. They have withdrawn their troops and customs guards from the frontier at Ponte Caffaro and Ladrona after destroying the bridges, the telegraph and telephone lines and the electric light apparatus. Other bridges on the frontier have been mined. Austrian and German forces of heavy artillery are concentrated on the frontier at Trent, Bozen and Meran and movements of considerable bodies of troops are reported from Munich. Great numbers of Italian troops are massed along the frontier and the Austrian authorities are guarding the movements of troops with great secrecy. It is known that 200,000 Italian troops have been concentrated on the coast of Italy across the Adriatic from Albania. With the Italian army already in the field, the Austrians are expected to enter the war at any moment, the reconstructed Serbian army has commenced a march toward the Austrian border. It is announced Austria being thus attacked from all sides and with the prospect that Rumania, Greece and Bulgaria will enter the war on the side of the allies of the triple entente, the Teutonic allies are making strenuous efforts to complete the defeat of the Russians who are resisting stubbornly behind the San River and around Przemyśl, Galicia.

The latest Austrian official statement says that on that part of the San running down from Silesia the Russian detachments are holding the west bank have been thrown back. The Austro-German forces in stubborn night battles east of Drobobycz have captured Nudorf. Vienna claims that the Russian counter-attack across the Dniester in East Galicia has come to a standstill and the Austro-German war office says:

"The total number of prisoners in our hands now amount to 194,000."

In the western theater of war the allies are confining themselves to attempts to organize the offensive which have gained the inclement weather having stopped the battles. The allies claim to have been successful in this organization. The Germans, however, state that all the allies' attacks have been repulsed.

AUSTRIANS DESTROY BRIDGES ON ITALIAN FRONTIER

Austrians Evidently Believed a State of War Exists with Italy.

Brescia, Italy, May 21, via Paris, 6.32 p. m.—The Austrians evidently consider that a state of war exists between the dual monarchies. The Austrians have withdrawn their troops and customs guards from the frontier at Ponte Caffaro and Ladrona after destroying the bridges, the telegraph and telephone lines and the electric light apparatus. Other bridges on the frontier have been mined.

From Ponte Caffaro and Ladrona two roads pass over the frontier and serve for communication between Italy and Austria.

On the neighboring mountains Austrian artillery can be seen.

London, May 21, 9.37 p. m.—"There was a lively bombardment yesterday of the Dardanelles directed principally against numerous Turkish camps at Komu Burnu, on Asiadu side," says Reuters' Athens correspondent. It is stated that Chanak Kalesi has been completely destroyed and that the town of Gallipoli, on the European side of the waterway, has been badly damaged."

COURT TAKES RIGGS BANK CASE UNDER ADVISEMENT

Prayer for Injunction Pending Litigation Is Denied.

Washington, May 21.—At the conclusion of five days of argument, Justice McCoy of the district supreme court, today rendered his decision in the motion of the government to dismiss the suit brought by the Riggs National bank to enjoin Secretary McCarty from enforcing the Currency Laws and Treasurer Burke from alleged unlawful persecution of the bank.

Relief sought by the plaintiff pending litigation was denied by the court. The court ordered the bank to pay the interest on the bonds due the bank and withheld to cover penalties imposed by the comptroller for failure to furnish the reports. A temporary restraining order against the payment of this money into the fund was granted at the outset of the proceedings and the court later will pass upon the question of continuing it.

Justice McCoy indicated that he would occupy some time considering the case, but would endeavor to discontinue it before July 1st. In denying the prayer for an injunction, Justice McCoy said that without considering what evidence might be presented, he was not prepared to make a ruling in the record now before him which showed the government officials had acted in a lawful manner. He arbitrarily in regard to the refusal to select the Riggs bank as a reserve agent.

It seems to me on the record as it stands that the government officials would be remiss in their duty in allowing the bank to continue its operations. The evidence here is of persistent violations of the laws and these violations do not begin when Mr. Williams came into office and they have continued to this day.

Justice McCoy added, it might not be out of place for him to say that the policy of not having deposits in stock exchange banks as compared with commercial banks was a good one and that congress had adopted the same policy expressed in the federal reserve act.

The court also considered on the record the evidence that Secretary McCarty showed malice in an interview in his office with Riggs bank officials. The justice said it appeared to him that the malice was rather upon the other side.

BRITISH PEOPLE TALK OF COALITION CABINET.

Feeling of Resentment Against London Times and the Daily Mail.

London, May 21.—The British people talked of nothing yesterday but who should be members of the new coalition cabinet. The Times and the Daily Mail speculations were forgotten in the presence of the suddenly awakened controversy over Lord Kitchener.

The Times and the Daily Mail attacked the competency of the war minister this morning, and the impeachment of the British empire was a fierce. A upheaval of popular resentment against these newspapers and the dominating spirit, Lord Northcliffe, and the Daily Mail, seemed to indicate that the field marshal commands the confidence of a large proportion of the countrymen, despite newspaper criticism.

The stock exchange men held an excited meeting, formally burned copies of the Times and the Daily Mail, adopted resolutions supporting Lord Kitchener. Other meetings of protest were held in London and the Daily Mail are being planned and a large section of the press has come to his support.

The Pall Mall Gazette says the attacks made on Kitchener have rendered him more powerful and popular than ever. The newspaper says publicity to gossip which is smoldering about London clubs and newspaper offices concerning Lord Kitchener, which, however, seem to be without any apparent tangible foundation.

AUSTRO-GERMAN FORCES CONCENTRATED AT TRENT.

Theory is They Plan to Carry the Fighting Into Italian Territory.

Geneva, May 21, via Paris, 4.50 p. m.—Information gathered by correspondents on the eastern frontier of Switzerland shows that Austrian and German forces, with heavy artillery, have been concentrated at Trent, Bozen and Meran in movements of considerable bodies of troops are reported from Munich.

The theory is advanced that Germany and Austria expect to break through the Italian frontier defenses and carry the fighting into Italian territory. Italian troops are massed in great numbers, however, along the same front.

8,000 ITALIANS IN NEW HAVEN WOULD RESPOND TO CALL
